Appendix "A", No.2

Report on the Activities of 3 Troop, No 3 Cdo in Normandy, on "D" Day - 6 Jun 1944

LANDING

3 Troop's L.C.I. landed well on time (H 105) and the troop immediately disembarked at top speed, although there was some slight confusion caused by the difficulty in handling bicycles. The Troop crossed the beach under fairly heavy enemy shell fire but suffered only one or two casualties, including Lieut. E.F. Lewis. The Troop then contacted the rest of the Commando at the F.U.P. and then pushed on inland across swampy ground. The bicycles, with their loads of 3" mortar bombs, made this a very strenuous task. Quite a number of the men had been unable to get their cycles ashore.

ADVANCE

Once across the swamps the Troop infiltrated inland along hedges and fields until our forward tanks were contacted. A path fit for cycling was reached near ST AUBIN d'ARQUENAY (0977) and the Troop led by Captain E.R. Westley pushed on towards the bridges at BENOUVILLE (099749), overtaking various formation of No 1 SS Bde en route. The Troop crossed the bridges as a body and at this time one bridge was under fire from an enemy sniper. One casualty occurred here. At the EAST end of the second bridge Brigadier The Lord Lovat was met. Captain Westley reported to him and he was instructed to take the troop along the main road towards SALLANELLES (1377) and contact a Para Btn holding the high ground to the EAST of the road. At cross roads 122756 Captain Westley contacted OC 9 Para Btn who asked for assistance in attacking and destroying an enemy strong point at LE PLEIN 128751. After consultation with the Bde Cmdr, 3 Troop were given orders to make an attack in conjunction with the Para Bn.

ATTACK ON LE PLEIN

At approximately 1400 hours on D day, 3 Troop mounted on bicycles reached the cross roads below LE PLEIN at 122756. The 9 Para Btn (what there were left of them) were holding this position and Captain Westley conferred with their Colonel. Soon after we arrived, Major Rushforth of 45 (RM) Commando arrived with his troop and the three forces decided to combine and attack the place covered by 3" mortar fire from No 6 Commando who were in the area. We were to supply the mortar bombs. A recce was made around the left flank and a plan decided on, 9 Para Btn were to give us covering fire from the area of CHATEAU d'AMFREVILLE and the two Commando Troops were to assault the town straight up the hill from the cross roads. Just before this attack was fulfilled Major Rushworth was called away by his C.O. The mortar bombs which we had been carrying on our bicycles were found to be of no use, the charges having been removed. At this stage Brigadier The Lord Lovat arrived and ordered 3 Troop to carry on and put in the attack. At about 1530 hours the Troop moved up the road leading to the town, a section each side of the road. "A" Squad of 5 Section was detached and put out on the left to support us with what fire they could, but later they re-joined the troop as there was no possible position which they could use. When we reached the buildings (now Bde HQ) heavy small arms fire was opened up on us from houses about 50 yards to our front on the left of the road. Troopers Osbourne and Jennings returned this fire with Brens fired from the hip. Captain Westley, L/Sjt Hill and Troopers Harnett and Dean were casualties, Tpr Dean being killed. The Force withdrew rapidly, bringing the wounded and killed with them. Until they were down the road and under cover Troopers Osbourne and Jennings maintained their fire in the open and then withdrew. It was obvious that this route of advance was impossible and that the Troop needing reforming. Captain Westley was bleeding badly from his right arm and ordered me to take command. I sent Sjt Synnott and his squad up the road we had withdrawn from to stop the enemy infiltrating down the road and to engage them. L/Sjt Salisbury and squad went right round to the right of the town to cause a diversion and I went up towards the middle of the town with L/Cpl Hodgson and Cpl Lawrence to carry out a recce

for the main assault. Using a small path we soon found a good position opposite the school buildings and we could see the enemy strong points from where we were. Cpl Lawrence went back and brought up the remainder of the troop. I sent Sjt Edmunds and four men to clear the buildings to our immediate right and laid 2" mortar HE on the Post Office building. The enemy had been observed in this building and in the surrounding area. The Bren also took up the fire-fight and the building was plastered with fire, 2" mortar smoke also being fired at the same building. It was found extremely difficult to get the mortar barrel low enough and the first three smoke bombs cleared the roof and set a farm building alight 150 yds. to the rear of it. Eventually they got the range and a smoke bomb entered one of the windows and others bounced off the walls. While this was happening the buildings to our left were being cleared. The Post Office was then assaulted and several enemy were killed withdrawing. The assault party which was then joined by Captain Westley with his wounds dressed, pushed on and took approximately fifteen enemy prisoner in the far side of the town. Sjt Edmunds' clearing party accounted for another six and Sjt Synnott accounted for several more who gave themselves up when he advanced. The troop took up position forward of the town along a hedgerow which they held for the next five days. During the evening I went round to contact O.C. 6 Commando and returned at 2030 hours to learn that enemy mortar bombs had landed close to the Post Office and killed T.S.M. Coaker and wounded three others (not of 3 Commando) the identity of whom I have never discovered.

(Signed) K.D. PONSFORD Captain, O.C. 3 Troop.

Appendix "A", No.3

Report on an Attack by 4 Troop on an Enemy Gun Battery at Merville and the Subsequent Withdrawal

Maps Used :- Sheet 40/16 N.E.

Sheet 40/16 N.W.

1. At about 1330 hours 7 Jun 44 4 Troop was in a defensive position in the area stone quarry 114749. The Troop was suddenly ordered to move back and take part in a general attack by 45 (RM) Commando on FRANCEVILLE PLAG. Captain BD Butler MC moved off with Major JBV Pooley MC RA to an "O" Group at 45 Cdo HQ and Lt. G Pollard MC MM moved the Troop up the main road towards SALLANELLES.

2. FIRST CASUALTIES

Just short of the R.V. 126764 the Troop suffered its first casualties of the campaign. The enemy was shelling the road spasmodically, and although we were moving under the shelter of a barn two lucky shells caused casualties. Tpr Hickey was wounded in the shoulder, Tpr McAllister was hit in the hand and Cpl McDonald was knocked out by the blast and did not take part in the subsequent operations of the day.

3. THE PLAN

At the R.V. we were joined by Captain Butler who explained our part in the attack. 5 Troop under command Captain Woyevodsky would attack a gun battery at MERVILLE and would be given fire support by 4 Troop. Following the attack 4 Troop would take over the lead to the outskirts of FRANCEVILLE and then the force would develop EAST on the fringe of the town.

4. THE ATTACK

No 5 Troop who were only carrying their arms and ammunition as opposed to 4 Troop's full equipment, led the way to the Battery, and from the area road junc.

158774 formed up to attack. 4 Troop moved one section to provide fire support and 5 Troop under Major Pooley moved around the right flank. Two LMGs which began firing from the battery area were quickly silenced by the fire of 4 LMGs and the A/Tk rifle. The 2" mortar provided a smoke screen to cover 5 Troop over an open piece of ground. Shortly after the attack had begun Sjt King with one section of 5 Troop appeared and said he had lost touch with the remainder of his Troop.

5. LAG

There was no signal from the attacking troop and after about twenty minutes Lt. Pollard moved 7 Section up on the left and had almost reached the wood when heavy shell or mortar fire came down upon them. Tpr Abrahams was wounded in the arm and as there appeared to be no advantage in remaining in the area Lt Pollard re-joined the Troop. When the shelling had cleared, 7 Section again moved up on the left and on the way contacted a party of the C.O's who joined Captain Butler.

6. THE BATTERY TAKEN

7 Section moved into the battery area without opposition and made contact with the section of 5 Troop who were mopping up the area, and dealing with a few remaining snipers. The remainder of the Troop then arrived and consolidation began in the area of MERVILLE. Attempts were made to blow the guns and while this operation was proceeding Major Pooley was shot in the head and killed by a sniper who still resisted in one of the casemates.

7. COUNTER ATTACK

The force lingered in the objective area and signs of enemy activity began when a low trajectory gun from close range opened fire in the wooded area E.N.E. MERVILLE. The first shell caused several casualties and Lt Williams went off with 'A' squad to attempt to silence the gun. A curious incident here occurred. From one of the houses through the trees came the sound of a shot - not fired by our force - and then cries of definite Teutonic origin. A theory forwarded by Captain Butler is that this was a German shot by his own gang of determined fanatics. From the activities and resistance of the enemy in the casemates I can well believe this to be so.

CASUALTIES MOUNT UP

The patrol, which was not seen again, evidently ran into trouble for LMG fire was heard, and there were sounds of Bren and MG 34's firing. Meanwhile our casualties began to mount. Tpr Lambert, believed killed, was hit by a shell, and Troopers Chapman and Chatham were wounded. 5 Troop also reported casualties further into the village where they held the cross roads. A party of about nine were moved into a bomb crater and immediately a bomb exploded in it. Tpr Mills and Tpr Dunne were badly wounded here, and Tpr Barber was hit in the back as he was moving along the road. An attempt was made with a 2" mortar to silence the gun but without success.

WITHDRAWAL

Captain Butler decided to withdraw the force, and unfortunately the only practicable way lay through a minefield. A number of casualties here occurred, chiefly through "S" mines. Tpr Smith, L/Cpl Creswick and TSM Hubbard were wounded. After the minefield the force reorganised by the woods and then moved off in an orderly fashion, 5 Troop leading towards SALLANELLES. Near SALLANELLES a party of 45 (RM) Cdo was contacted and they moved back with us. One the way back Tpr Napier was hit in the arm by a shell splinter but carried on and reached the RAP. Our lines were reached without further incident.

THE WOUNDED

I should like to add an especial word of praise concerning the behaviour of the wounded. They were extremely patient, uncomplaining, and in the face of their peril of being completely abandoned, extremely cheerful. In particular I would

mention the attitude of L/Cpl Creswick and Tpr Smith, who set an example I shall be a long time in forgetting. Attached is a complete list of our casualties.

(Signed) Gordon Pollard Lt., No 3 Commando.

Appendix "A", No.4

The Account of the Attack on Merville Battery (155775) 7 June 1944

Troops taking part :- No 4 and 5 Troops

In Command :- Major J.B.V. Pooley MC RA.

Object :- To take and destroy the guns in the battery. (No explosives were taken as the object was not known until too late. No time was given for the preparation of this operation)

NARRATIVE

The Force left SALLANELLES with 5 Troop leading and took the direct route to the road junc. at 155768 at point C. There the plan was made as follows:-

- (i) 4 Troop to take up position along edge of wood at point D to carry out fire-fight until they saw 5 Troop assaulting the position, then to move up and consolidate.
- (ii) 5 Troop to move round the right flank to point A and assault battery.

This plan was carried out with the following incidents.

- (i) 10 Section of 5 Troop got left behind and did not arrive on the battery until after the assault had gone in by 9 Section and mopping up was taking place.
- (ii) 9 Section were sniped all the way to point A from the battery and finally had to assault through a minefield to get at the battery, thereby losing three men.
- (iii) The Germans in the battery possessed fanatical courage and fought until they died.

During the mopping up of the position Major JBV Pooley MC was killed. The enemy then began to shell the battery and both troops withdrew to the road running NORTH from the Battery. For an hour after this the enemy brought down heavy fire on our position inflicting further casualties until it was decided to withdraw from the position altogether. The only method of withdrawal was through another minefield, which was carried out with further casualties. From there the route back was along track from the Battery to SALLANELLES, where the Force joined up with the remainder of the Brigade.

Appendix "A", No.5

Report on the Activities of 6 Troop Against the Enemy at Le Plein on 8 Jun 44.

At noon on 8 Jun 44 6 Troop, No 3 Commando under the command of Captain J. Alderson were in a defensive position at LE PLEIN in the area of 131756. The Troop was being attacked by a strong force of Germans which was part of a Battalion attack being put in against the Commando's line. 6 Troop were under enemy fire coming from houses at 132755, hedges to their front and from the wood at 137757. An M.G. was also firing from 132754 but this was located and Sjt Evans G who ordered 2" mortar H.E. to be laid down on this position with success. The M.G. position at 132754 was observed by Tpr Forsyth who quickly put it out of action with fire from his Bren.

The enemy attack was eventually repulsed and Captain Alderson gave orders that the troop would clear the area to their immediate front.

The Troop formed up at 131754 with 11 Section under Captain Alderson to advance along road from 131754 to 137752. 12 Section under Lt. R.G. Herbert DCM MM was to clear the orchard on the left of the rd.

12 Section entered the orchard at 131756 and extended into line with Lt Herbert controlling the advance from the centre and with "C" Squad on the left and "D" Squad on the right. The Section was at this time under fire from Mgs in the woods at 137757 and from S.A. to their front, and from houses to their right.

The advance continued through the orchard for about 80 yards to a hedge without the enemy being observed. Just as the advance was to be continued 12 Germans were seen to run from the road into the houses. Sjt Evans G ordered his squad to engage the enemy whilst he went forward to warn Captain Alderson who was still advancing down the road. Captain Alderson on learning of the enemy's position immediately set about clearing them from the houses.

Sjt Evans on re-joining his squad found that they had advanced a further 50 yards and sustained two casualties. The two squads of 12 Section then re-joined under Lt. Herbert and reached a point 133756. Failing to penetrate the hedge bordering the second orchard Lt Herbert led his section along a lane and in towards the road. When advancing along this lane the section was fired on by eight Germans who had an MG position in a ditch. The Section engaged them and two were killed, three wounded and the remaining three surrendered. The Section then arrived at junc. of track and road at 132754 and joined up with Captain Alderson and his section who had succeeded in clearing the enemy from the houses.

Captain Alderson here ordered his 2" mortars to engage the enemy MG positions in hedge at approx. 134756. An attempt was made to enter the orchard on the left of the road but all means of entry were under heavy enemy fire. It was decided to continue the advance along the road. Sgt Evans A and his squad were sent to assist Lt. Wardle's party (1 Troop) who were clearing the field on the right of the road.

With Captain Alderson and Lt. Herbert leading the Troop advanced down the road for a distance of 30 yards when they were fired on by enemy positioned in the ditches on either side of the road. The advance was non-tactical but owing to the shining example set by the two Officers, the Troop's complete disregard for danger and the speed of the attack the enemy were completely demoralised. 6 Troop's fire inflicted many casualties and those who were not killed or wounded surrendered.

The prisoners were sent back to Commando HQ and the advance continued for another 300 yards when the troop again came under fire from a ditch 137753. Captain Alderson entered the field in which the enemy MGs were positioned but was shot in the leg by one of the enemy. Lt Herbert led the troop on and engaged the positions by firing a Bren gun from the hip. He continued for about 20 yards until he was hit and killed. The Troop still engaged the enemy forcing them to disengage and leave their weapons in their positions.

The area was now coming under heavy M.G. fire directed from 134755 so Captain Alderson although wounded gave the order for his Troop to withdraw. This was carried out without further casualties.

The strength of the Troop at the beginning of the counter-attack was 2 Officers and 39 Other ranks. Total casualties in the troop were 1 Officer killed and 1 Officer and 7 ORs wounded. Total casualties inflicted on the enemy cannot be estimated but many were killed and wounded while 40 were taken prisoners. A patrol sent out later brought in Lt. Herbert and also many MGs and LMGs left by the enemy in their hasty retreat.

Appendix "B" No.1

Subject: Patrol.

To:- Adjutant No 3 Commando

From:- O.C. 4 Troop.

TYPE. Fighting patrol, 1 Officer, 11 O.R.s.

TASK. To investigate wooded area NE SALLENELLES, as far as 145775 and to kill or capture any enemy in that area.

DATE. 12 June 44.

TIME OUT. 0115 hours.

TIME IN. 0345 hours.

ROUTE. Through F.D.L.s at 132672 and to wood via road to SALLENELLES.

ACTION. Patrol swept the area detailed and failed to contact any enemy. 2" mortar flares and 2" mortar H.E. bombs were fired and also small arms in an endeavour to provoke a reply but without success.

Appendix "B" No.2

Subject: Patrol Report.

Map: Sheet 7F/2

To: The Adjutant, No.3 Commando.

From: O.C. 3 Troop

On the 12th Jun 44 I was ordered to take 40 men on a fighting patrol to the area of the forward edge of the wood (138757). It was to be of weak troop strength and to consist of 40 men and myself.

The object was to attack as flank protection to a battalion attacking BREVILLE during the afternoon.

We left Commando H.Q. at 1400 hours and made our way to SALLONELLES via HAUGEN. We then cut across country through the R.M. Commando lines to the T junction leading down to the farm 137765.

On approaching the T junction a light German patrol of one officer and three men were seen approaching, approximately 150 yards to our front from the area of the farm 139675. These were observed for a short period and then engaged. They went to ground and other Germans were seen in the farm buildings. I then decided to attack the farm. This we did straight down the road. The 2" mortar was fired at low angle and the Brens worked ahead in bounds giving covering fire to the troops in the ditches.

On the way down the road we shot a German trying to escape, evidently one of the patrol who had been left behind to give the remainder cover for their withdrawal. He was armed with a machine pistol and was still alive after we had cleared the farm - from where the enemy had escaped we brought the prisoner in and laid him down. He appeared badly wounded and unable to move by himself. I sent a man back to the troops of a R.M. Commando and asked them if they would come with a stretcher and get him. This they agreed to do.

I then observed of the enemy 300-400 yards away, due East of the farm. They were moving away from the wood which was to be our objective. On the way up we were sniped at from a farm building beyond the edge of the wood as we approached it. We did not return the fire.

There were quite a number of dead Germans at the far end of the wood. They appeared to have been killed from Mortar fire and had been there for at least five or six days.

The area we occupied had previously been held by British forces for deep trenches had been dug and a great deal of British kit lay about including the very large haversacks and a strip-Lewis (which was U/S) and about 30 magazines for the latter.

While we were in this position we saw nothing of interest except that BREVILLE was getting one of its many poundings by our guns and mortars.

We withdrew from the position at 1720 hours after informing H.Q. On reaching the farm we discovered that the R.M. Commando had come down for the German and had gone back for a stretcher, but during this time they took to get it, the prisoner with the aid of one of his comrades had succeeded in making his escape.

We returned to our own lines without further incidences.

(Signed) K.D. Ponsford.

Appendix "B" No.3

Subject:- Night patrol report of 12 June 44.
To:- Adjutant No 3 Commando.
From:- O.C. 6 Troop.
Map Reference 7.F./2.

Patrol consisted of 4 Officers and 65 O.Rs. Started off from Commando H.Q. at 2200 hours in the direction of GONNEVILLE.

OBJECT.

Firstly to create a disturbance in the GONNEVILLE area. Secondly to capture prisoners. Route taken by patrol through Farm House 139765 which was reported to be occupied by the enemy. The Farm House was found to be unoccupied and the patrol reformed in the area. At this point the attack on BREVILLE was in progress and enemy guns firing tracer were observed on our right flank in considerable quantity, 140759 area. The patrol advanced to a point on the road 153765 having first inspected diggings at point 140766 which appeared to have been British as British equipment was lying in the area. The hedgerow on the near side of the road GONNEVILLE to BREVILLE was occupied by the enemy who could be heard talking. It was then decided that half the patrol under Lt.Col. P. Young, DSO, MC. should remain watching the road and hope to capture prisoners, whilst Captain J.F. Nixon, MC. and the remainder should advance towards GONNEVILLE and create a disturbance. The patrol advanced until the voices of German soldiers could be heard very distinctly quite close to the town itself. The patrol then spread out on the ground and opened fire from 2 2" mortars and all available small arms. When ammunition expenditure had reached a high percentage the patrol withdrew in the direction of the Farm. The Germans did not attempt any opposition but put up illuminating flares. As arranged both parties of the patrol withdrew to Commando H.Q. independently. Colonel Young's party captured 3 prisoners from the hedgerow and then having fired into the hedgerow withdrew. This patrol was fired on by the enemy on its withdrawal.

CONCLUSION.

Enemy in occupation of GONNEVILLE area but area from Commando H.Q. to GONNEVILLE not occupied by static force.

Patrol Commanded by Captain J.F. Nixon, MC. No 3 Troop attachment by Lt. Ponsford comprising of 1 Officer and 35 men. No 1 attachment by Sgt Firth comprising 1 N.C.O. and 10 men. No 6 Troop attachment by Sgt Evans (69) comprising of 1 N.C.O. and 8 men. H.Q. attachment (Medical Staff) under Captain E.L. Moore, MC. The patrol supervised and commanded by Lt. Col. P. Young, DSO, MC. and a small party of H.Q.

Appendix "B" No.4

To:- Adjutant, No.3 Commando.
From:- O.C. 3 Troop.

On 12 Jun 44, I was ordered to take out volunteers from 3 Troop on a large fighting patrol which was commanded by Captain Nixon (3 Commando); There were 37 of 3 Troop in all.

We were to go to the area GONNEVILLE in order to discover the disposition of the enemy in that area and capture prisoners. We started at 2145 hours and made straight for the farm 139765 which we had previously taken the same afternoon. No enemy was met or opposition sighted up to this point. It was then decided to cut straight across country under cover of darkness to GONNEVILLE and form further plans when we got there. The country was crossed without incidence and we halted 100 yards short of the main GONNEVILLE-BREVILLE road, about 400 yards outside GONNEVILLE.

A Party under command of Captain Nixon was sent 200 yards left of our forming-up position. I took one section (5) of 3 Troop a 100 yards to the right and the

C.O. 3 Commando remained in the centre with 6 Section 3 Troop and his party to give covering fire if required.

Captain Nixon's party were to act as a diversion. My party was to push on to the road, ambush some Germans and bring back some prisoners. Just as we were approaching the road, reference 152763, a burst of automatic fire came from our left approximately 300 yards which sounded like an MG 34. This fire was immediately returned and the firing continued for a short period perhaps 30 seconds. After that there was no more firing for some time.

Up to now my party, one squad forward, one about 30 yards in the rear, had been working forward in short bounds, approximately 20 yards and had been stopping to listen. We took advantage of the noise of shell fire which was going on periodically to move forward and when the fire was opened to our left we made a large bound forward which brought us to a position about 10 yards from the hedgerow which runs along in front of the main road, the road being raised approximately 4 feet.

We then had a period of listening for about 2 minutes when we heard a party of three moving down the road in the direction of BREVILLE. At this we moved up right forward to the hedgerow. I made for a gap but found it was boarded up and that I could not get through the hedge without causing a disturbance. I therefore stopped and listened. About 2 yards to my front I heard deep breathing of a man asleep. I ordered Cpl Lawrence to come forward and gave him instructions to awaken the man and tell him to come with him. Also that if he made a noise we would shoot him. Just as he was about to carry out these instructions the three men were heard coming back along the road and so we waited until they had passed. When all was quiet he did as I instructed. The man went for his MG 34. Cpl Lawrence caught hold of him and I got the weapon. He came out without causing any trouble except that he spoke rather loudly. However he did not rouse anyone so all was well.

The prisoner was searched and he and his weapon were sent back under the command of Cpl Barnes and his squad.

With exactly the same procedure we went to another trench and took two more prisoners. They made more noise than the previous one but they soon quietened down with firm handling. We then decided to withdraw while the loss of these men remained undiscovered.

I looked round for the remainder of the party but could not find them in the dark and not wanting to make a noise decided to push back to the farm and wait for them there. We got back without incident and waited for approximately 15 minutes during which time some shots were fired through the farm-yard from the wood on the left of the farm. Not knowing whether the other parties had returned or not I decided to wait no longer and withdrew to our lines arriving at H.Q. at 0245 hours approximately.

(Signed) K/D/Ponsford. O.C. 3 Troop.

Appendix "B" No.5

Subject: Patrols.

To:- Adjutant No 3 Commando

From:- 4453883 L/Sgt Synnott. J. F. 3 Troop.

Map Reference. 7.F./2.

On 13 June 44 at 1630 hours I went out on patrol from Commando H.Q. to LA GDE FME DU BUISSON taking the normal route in order to hold the Farm for a patrol passing through same night. On arrival at the Farm I found it unoccupied and posted my

men (12) in number in defensive positions in and around the Farm buildings. Shortly after arrival an observer reported enemy activity in the area of the diggings 144768. (6) of the enemy were observed at the same time. At approx. 1730 hours a party of 6 enemy were seen to move off in a NORTHERLY direction. They were seen no more. At approx. 2045 hours it was reported that there were enemy reported in the orchard on the left hand side of the Farm as it approached from our lines. They were then seen to work round the far wall of the Farm, across the lower gate. As they passed they were counted and found to be 40 in strength including 1 Officer and 4 L.M.G. The main force of the enemy took up position in and around the right hand orchard with the L.M.G. in position along the further hedgerow of the orchard at approx. 2100 hours. I decided to withdraw my force up the road to the T junction 137765. I was unable to warn 4 of my force to withdraw owing to the fact that the Farmer had locked the doors. L/Cpl Grant and I went back to the Farm to withdraw these men but just then a force of British Marauders heavily bombed the area of the T junction. This caused a great deal of dust and smoke which gave us cover to withdraw. On arrival at the T junction I found that my main force had withdrawn to the valley 133765. I searched the area of the T junction and found a Sgt of 47 R.M. Commando who was wounded. I dressed his wounds and arranged a stretcher party. My main party had suffered no casualties and I sent a runner off to Lt. Ponsford to warn him that I had been forced to withdraw from the farm. I then moved the main force down the road to the Farm where I observed the enemy approaching through the orchard on the right. I decided that the force was not strong enough to attack the enemy so I returned to the T junction placed my force in a position of defence until Major Hopsons patrol arrived and I informed him of the strength and disposition of the enemy.

Appendix "B" No.6

To: Adjutant No 3 Commando.
From: O.C. 6 Troop
Subject: REPORT ON PATROL ON EVENING OF 14.6.44 (MAP 40/16 N.W.)

A patrol consisting of two officers and 26 O.Rs of 6 Troop 3 Commando, left 3 Cdo lines at 1930 hours on 14.6.44, in the direction of LONGUEMERE WOODS along the rd. The patrol cleared and occupied farm house at 139753 and proceeded on either side of the road down to the X roads at 144751.

Acting on the information acquired by a previous recce patrol of this troop, the patrol was equipped with two jeeps which collected one German Heavy mortar gun tripod and base plate from a farm at 143750. A shooting van abandoned on the road at 143748 was successfully towed into a safe position behind the patrol.

Col Young with a small party advanced along the road in the direction of GONNEVILLE and observed a small party of the enemy in field at 144752 and sent back information to Captain Nixon to bring forward the reinforcements required and which were astride the X rds and holding the rds. Captain Nixon advanced towards GONNEVILLE and failed to contact Col Young but observed him across the field at 144753. As Captain Nixon was advancing across the field two Germans rose from the middle and ran to the corner of the field nearest GONNEVILLE. All ranks immediately opened fire and it is believed that one German was hit. An enemy LMG opened fire but Captain Nixon and his party gained the hedgerow without casualties, and caught up with Col Young. The party then withdrew as a whole to

the farm at 139753. Shots were exchanged during this withdrawal, but they were obviously not aimed shots.

At the farm the party was reorganised and the whole patrol together with the two jeeps and captured car, returned down the road to Unit lines.

CONCLUSION

Enemy not in occupation of area up to and Inc. the X rds at 144751, but small standing patrols being sent out from GONNEVILLE - this place obviously occupied by the enemy along the main rd.

PATROL CONSISTED OF :-

Patrol Cmdr :- Captain J.F. Nixon, MC
Lt. Cunningham. and 26 O.Rs.
Patrol under supervision of Lt.Col. P. Young DSO, MC.

O.C. 6 Troop.

Appendix "B" No.7

SUBJECT: PATROLS (REPORT) 150600 B - 160600 B

1030 hours Strong French patrol one Officer and 20 ORs occupy farm at 140754 without interference.

1200 hours Recce patrol to X rds 144752 driven off by enemy small arms fire.

1530 hours Two snipers from 1 Troop No 3 Cdo penetrate to area of X rds 144752. Observe enemy, four in number, near house at 143752. Shoot two and withdraw under enemy MG fire.

1900 hours Vickers Section and Mortar section with covering infantry proceed in jeeps via BREVILLE by agreement with I RUR to 138747 and engage enemy in area X rds 144752. 100 rds 3" mortar HE and several thousand rds Vickers fired into area. Three enemy observed near houses 143750. Enemy reply with MG, 20 mm A.A., and rifle fire. Force withdraws via BREVILLE at 1930 hrs without casualties.

2230 hours French send fighting patrol to search X rds 144752 and area immediately NORTH and SOUTH. No trace of enemy found.

2300 hours Patrol of one officer and 12 ORs from 4 Troop 3 Cdo left at X rds 144752 to ambush enemy should he return at first light.

DEDUCTIONS Enemy appears to hold area BAS de BREVILLE and to have a standing patrol at X rds 144752 by day.

2100 hours 3 Troop 3 Cdo supported by a troop of 4 Cdo under Major Porteous leave to investigate area GRANDE FERME DU BUISSON and road GONNEVILLE - BREVILLE. 3 Troop suffer one casualty (killed) by own anti-personnel mine laid in 4 Cdo area on approach to farm.

2300 hours GDE FME DU BUISSON and orchards cleared.

0030 hours "C" Troop 4 Cdo occupy farm while 3 Troop 3 Cdo proceed towards road GONNEVILLE - BREVILLE. The road was reached at about 148760 and patrolled for some distance. It seemed to be thickly held, and everyone was very alert. There

was the noise of weapons in trenches and people being halted on the rd. It was not possible to penetrate the line. The patrol withdrew from the road at 0245 hrs via the farm.

CONCLUSION The line was so much more active than previously that it is possible that there are new troops in the area or that they are forming up for an attack.

Appendix "B" No.8

SUBJECT: Patrol Report
TYPE: Standing Patrol
AREA: Farm Buildings - M.R. 140755
STRENGTH One Officer and 23 O.Rs.
OBJECT: To hold Longuemere until relieved

The patrol was ready by 1325 hours and left 1 Troop lines at 1345 hours. On approaching to within 300 yds. of FARM a quick recce was made and it was found the FARM was unoccupied. The patrol then took over the area, being split into four groups. Three with Bren guns facing NORTH EAST and WEST, HQ in rear making WEST point of square. Patrol did not use buildings at all.

Observations posts of two men each were placed out, one to watch X rds 144752, the other the woods to the WEST of the position. They reported every half hour to Troop HQ.

During the occupation there was desultory shelling and mortar fire coming from our own and enemy positions.

At 1930 hours a Smoke screen was laid on the track 148753 and the relief patrol of 45 Cdo appeared through it. Handing over was completed thoroughly and patrol returned to its lines at 1955 hours.

No enemy movement was observed during this time.

Appendix "B" No.9

To: Officer Commanding No 3 Commando.
Subject: Recce Patrol
Date: 16-17/6/44.
Strength: One Officer and five ORs.
Object: To find enemy dug in defences. Capture a prisoner

Sir,

On the night 14 Jun 44 I left LONGUEMERE FARM (139755) Map 7/F/2 at 2230 hours with 5 ORs to find enemy dug in defences on road 169792-143751 and secondly to capture a prisoner. I met no opposition going over X rds 143752 and only saw weapon slits as previously noted. The patrol moved along the WEST side of the road until reaching a point 146756 where German voices were heard on the other side of the rd. It was not possible for the interpreter to understand what was being said. Whilst I was issuing orders a party of Germans, about 12 - 15, left this positions and moved NORTH along rd. Another party could be heard moving EAST through the wood. When the place was quiet I decided to capture an enemy sentry but he must have heard us as we were crossing the road for two MGs and a number of carbines and rifles opened up on us. We returned to cover and the enemy continued to fire wild for about five minutes. When the firing ceased I tried to locate the patrol but failed to do so. I therefore moved further NORTH along hedgerow but was fired on by an MG position approx. 146758. As I was on my own I decided to return to LONGUEMERE FARM and collect the patrol. I arrived at the farm and found only two of my patrol there. I waited for the others until 0315 hours and then returned to No 6 Cdo lines with standing patrol. I reported to Bde HQ and also wrote out patrol reports.

Conclusions drawn from patrol

That enemy is holding point 146756 in some strength, is very nervous and appeared to be dug in although I didn't see the defences.

Two of the patrol reported in about 0600 hrs to their own Cdo and stated that when the firing started they took cover as ordered, then moved forward and failed to hear me ordering them to withdraw and eventually made their own way back.

Casualties

Own: One Cpl (45 RM Cdo) Missing.

Enemy: Nil.

(Signed) A.J. Cunningham, Lt., (A & SH)
Patrol Cmdr.

Commanding Officer's conclusions on Lt Cunningham's patrol on night 16/17 Jun 44. Area of wood bounded by road 147757 - 148758 is held as Pln Position with supporting forces to the EAST.

Appendix "B" No.10

Subject: Patrols - Night Of 17-18 Jun 44.

1. Patrol consisting of one Officer and 6 ORs left at midnight, returning at 0430 hours, with intention of bringing back a prisoner from area BAS de BREVILLE, M.R. 1475. Route taken : Commando lines at tk junc. 139752, along outside of hedge to bend in road 143752. Two of patrol went along road, rest of party through wood making R.V. at shelled house 145752. Officer and one OR proceeded eighty yds. along rd. Enemy had started indiscriminate shooting (MG 34) with the aid of Verey lights. Enemy were found to be holding the line of the wood in defended depth, and patrol drew enemy fire with aimed rifle shots on right flank. Enemy answered with another MG 34 and two rifles. Their appeared to be friendly patrol activity on Airborne side of bdy road 147748. Ascertained that enemy is holding wood 147752, unlikely that snipers are our side of BREVILLE GOUVILLE road; no outposts, listening posts or standing patrols are in evidence. There is complete absence of enemy patrol activity WEST of this road in LONGUEMERE district.

2. Patrol consisting of one officer and 7 ORs left at midnight returning at 0400 hours, with intention of bringing back prisoner. Route taken from Cdo lines. They encountered trip wire and booby traps at 135761 (4 Cdo lines). Patrol moved EAST skirting orchards SOUTH of LE GDE FME DU BUISSON towards main GONNEVILLE - BREVILLE road at 146756. Area at this point was too open for advance and patrol moved NORTH to 146758. Patrol attempted to penetrate enemy lines several times until 0305 hours, and withdrew to LD GDE FME DU BUISSON. No enemy were encountered and the patrol was not fired on.

From 1945 hours Mortar fire was observed from the enemy position at approx. 145754 firing in the direction of approx. wood 130760. During this period and up till 2115 hours, it was suspected that mortar shells were landing in our area fired from the *road or rear?* - the shells landed sufficiently close for shrapnel to penetrate our position. Some machine gun fire undoubtedly came from the enemy mortar position at 145754 but some also undoubtedly came from a position to our right flank - suspected to be Airborne position.

PATROL REPORT

Type :- Strong Recce
Task :- To discover Enemy Opposition in Area Rds 144751
Date :- 19 Jun 44.
Time Out :- 0330 hours
Time In :- 0455 hours
Strength :- One Officer and Seven Other Ranks :-

Captain G. Pollard MC MM.	Sjt Scott	Sjt
L/Sjt McDonald.	Cpl White	Roddis
Tpr Stewart and Tpr Clinting -	(LMG)	
2" Mortar		
Tpr Woods - P.I.A.T.		

REMARKS

Suspected enemy locations at wood 148752 were mortared and brought under small arms fire from area of house 143749. Two enemy LMG returned the fire spasmodically from N.E. wood in area between wood and road 145753. The enemy put up one flare from wood area and there was the sound of a mortar being fired once. The patrol withdrew at 0435 hours. As patrol moved away an M.G. fired, probably from area and position 147754.

Appendix "B" No.15

Programme - Patrol Activity - No 3 Commando
Night 22/23 Jun 44

No 1 SS Bde
No 4 SS Bde

(1) An attempt will be made to deceive the enemy with a "fire fight" between two "patrols", one using all enemy weapons and the other using all British weapons. The Section using enemy weapons will fire from approximately 143758 firing in the direction of the line 143758 - 147767 - 150778. The Section using British

weapons will fire on the line from 140763 to 152765. Fire will commence at 2350 hours and cease at 0001 hours.

(2) Three small patrols will operate as follows commencing approx. 0005 hours.

(a) A patrol of one Officer and three other ranks will leave 140763 proceeding to 143768 and returning morning of 23 Jun 44 before daylight.

(b) A listening patrol of one Officer and one other rank will leave 140763 to proceed to approximately 148764. They will remain in this area until night 23/24 Jun 44 when they will return. This listening patrol will be covered by two snipers who will proceed with them to approximately 146764 where they will stay covering the listening patrol until night 23/24 Jun 44 when they will return to our lines.

(c) A fighting patrol will leave this Unit's F.D.Ls at approximately 2300 hours 22 Jun 44 at approximately 131755 to 140753 to 144753 to 146757 and then return to our F.D.Ls.

(3) It is requested that Brigades warn all Units under command with especial reference to No 46 (RM) Commando listening point at 140764.

Appendix "B" No.16

To:- Adjutant, No. 3 Commando.
From:- Captain G. Pollard, MC, MM

Strength:- 1 officer 5 O.R.s.
Route:- Through LA GRANDE FERME DU BUISSON.
Time out:- 0030 hours. Time in:- 0200 hours.

Following the mock battle between 3 and 6 troops, the patrol moved through the orchard north of LA GRANDE FERME DU BUISSON. On the fringe of the orchard, Sgt Scott, Tpr. Stewart, and Tpr. Selby, remained with the mortar and Captain Pollard, L/Sgt McDonald and Cpl White, crawled through the cornfield to within 50 yards of the enemy positions.

Enemy were heard moving along the wood fringe between 142767 and 143768, and a mortar flare provoked a flare in reply from the area 141768. 2" mortar H.E. was dropped along the road fringe and the enemy put up another flare from the area 143768. An L.M.G. had fired earlier from this locality and odd rifle shots had occurred in this area when the patrol was in the orchard. Captain Pollard and Cpl White crawled to within 30 yards of the wood and the enemy put up another flare from the area 142768. They returned to the 2" mortar and directed fire onto the respective enemy areas.

A flare which went up during this period was quickly spotted and its origin at 141768 mortared.

The patrol withdrew through 3 Troop at 0200 hours.

(Signed) G. Pollard, Capt.
O.C. 4 Troop.

Appendix "B" No.17

To:- Lt.Col. P. Young, DSO, MC.
From:- Captain J.F. Nixon, MC.
Subject:- Night Patrol of 22-23 Jun 44, by No.6 Troop, 3 Commando.

Patrol under command of Captain J.F. Nixon, MC, comprising of one officer and six other ranks. Left Commando lines at 2320 hours.

Located position hedgerow 144755 when mock-battle began at 2359 hours, in woods surrounding LA GRANDE FERME DU BUISSON, although it was difficult to say whether the enemy were replying to this fire, no fire was returned from our immediate area, and when firing ceased, the patrol moved forward to position 145757.

Patrol lay up in this position until 0115 hours and voices could be heard to our left flank. Part of the Patrol reconnoitred down the hedgerow as far as the road, but the voices appeared to come from a greater distance than previously estimated.

The Patrol withdrew to the nearby hedgerow and having put up an illuminating light fired in the direction of voices. Contrary to expectation, the enemy did not return the fire and the Patrol withdrew through LA GRANDE FERME DU BUISSON.

Conclusion: Enemy standing patrols in that area not regular. Enemy more relying on main defensive positions which lie further towards GONNEVILLE, or on the opposite side of the road.

(Signed) J.F. NIXON, Capt.
O.C. 6 Troop.

Appendix "B" No.18

Subject:- Patrols, night of 22-23 June 44.
To:- The Adjutant, No. 3 Commando.
From:- Captain K.D. Ponsford, O.C. 3 Troop.

Object: To stage a fire fight between two sections one 'British' and the other 'German', thus tempting the enemy to come out from his lines to investigate.

Method: At approximately 2300 hours I took the Troop towards LA GRANDE FERME DU BUISSON, 139765. As we were going through No. 4 Commando lines two shells landed in the area of the farm. After a short time it was evident that the gun was shelling a wide area. We therefore pushed on to the farm and took up position - one section in the orchard to the right of the farm as it is approached from our lines, and one in the orchard 300 yards East, - both looking out on the corn field. At 2355 hours, fire was opened by the 'British' who fired in the direction of the GONNEVILLE-BREVILLE road. The 'Germans' returned the fire with German automatic weapons and the fire fight continued for approximately ten minutes. During this time, at least two and possibly three automatics opened up 400 yards to the left of the farm 142768 on both the 'British' and 'German' positions. They also used many illuminating flares and dropped light mortar bombs near the 'German' positions. Five more illuminating flares were put up by the Germans in the next hour and a small amount of firing was heard around the same area. After one hour the section posing as the 'Germans' withdrew to the farm where all round defence was taken up by the whole troop. Nothing more was reported except three shots which were fired at the farm from the area of the wood 141761 at 0345 hours. At 0410 hours Lieut. Pollock's party reported in. We waited another 20 minutes and were relieved by 46 R.M. Commando. We returned to Commando HQ without further incident.

Appendix "B" No.19

Subject:- Patrols - 22-23 June 44.
To:- The Adjutant, No. 3 Commando.
From:- 14316405 L/Cpl Littler, R. No. 3 Commando.

The Patrol started when leaving the LA GRANDE FERME DU BUISSON, Lieut. Pollock in charge of the covering party with Sgt Johnson of 5 Troop.

Cpl Lawrence, Tpr. Young and myself had been detailed to get a prisoner.

The patrol reached the hedgerow running parallel to the belt of trees running in front of the main road where the enemy were known to be.

The covering party under Lieut. Pollock were sent to the left and line of the hedgerow to give covering fire to Cpl Lawrence's party.

The instructions I received from Cpl Lawrence were that if possible we would get the prisoner by creeping up to the enemy positions and getting one by surprise, Cpl Lawrence to speak to him in German to persuade him to come quietly. If we were detected and fired on, we were to make our own get-away.

We crossed the open piece of ground towards the enemy positions and I could hear the enemy moving. I estimated that there was about 20 men in the immediate vicinity. I saw Cpl Lawrence kneel down by the side of a trench containing a German, and speak to him. He then shot him with one bullet from his tommy gun.

The German screamed and a machine gun fired across us and a party of Germans came running to the scene. Cpl Lawrence appeared to me to be attempting to get the German's pay book out of his pocket.

After the first burst of machine gun fire from the enemy from the left another one fired a few seconds later. The shots went high.

Tpr. Young and myself then split up and made for the hedgerow where we waited for a short time, but did not see Cpl Lawrence again. We then decided to get back along the route given to us.

In my opinion Cpl Lawrence either made a getaway along a different route or he was captured by the enemy. The covering party never opened fire and returned to the Camp shortly after the arrival of Tpr. Young and myself at 0445 hours.

Subject:- Snipers Report.
To:- Adjutant No 3 Commando.
From:- O.C. 3 Troop.

Two snipers were sent out from this Troop (L/Cpl Hanson and Tpr Lewis) to the area NORTH of LA GRANDE FERME DU BUISSON at 1130 hours 24 June 44. At 1500 hours they reported back with the following information.

They went to LA GRANDE FERME DU BUISSON which was occupied by a standing patrol of No 46 R.M. Commando. They crossed the orchard NORTH of the farm and using the cover of the hedgerow moved up to a point 142766 (junction of hedgerows) from which they observed a working party approximately 10 men working in the area to their front 767144. They were lopping branches off trees evidently clearing a field of fire for a weapon firing towards the farm. They also observed what looked like two enemy M.G. posts forward of the working party in two bomb craters beyond these positions a heavy mortar or gun was firing from the area of the woods (exact location unknown) towards the bridges.

The snipers withdrew to the farm and asked 46 R.M. Commando to give them assistance. This was not forthcoming and so they returned to 3 Commando area and reported the matter to me. 46 R.M. Commando Intelligence Officer was informed and appeared to know all about it. 1 SS Brigade was also informed.

Subject : Patrols - Sniping
To : The Adjutant
From : C.S.M. Edwards (3 Troop)

I left the GDE FERME DU BUISSON at 1230 hours 25 Jun in company with L/Cpl Osbourne by the WEST gate. We moved down the hedgerows on EAST side of orchard NORTH of Farm to a point 142767. Here we observed and reported enemy positions in hedgerows 140768 to 143769. There was no movement of any kind so after approximately twenty minutes we moved back to the orchard then down hedges on

WEST side of orchard to investigate area around point 139766. No enemy were observed in this area so we moved along line of trees to original position 142767 endeavouring by exposing ourselves to draw enemy fire. This met with no success. An enemy mortar was heard firing EAST of our position so I decided to try to locate it.

At 1500 hours we returned to the Farm where we were joined by Sjt Byrne of No 4 Commando. We left the Farm by the EAST gate and moved along to hedge junc. 142764 then NORTH to area of bomb crater 144765. Here L/C Osbourne moved out of cover into cornfield and proceeded to shout and wave his arms as though moving a section of men. After he had been doing this for some two minutes he reported enemy movement at hedge junc. 146766. Sjt Byrne and I then saw a group of enemy standing in a gap in hedge. We each selected a target and fired. Both enemy collapsed in a manner suggestive of being hit. We were then fired upon by M.Gs. We then returned to the Farm at 1545 hours. Small numbers of enemy were later observed in that area by standing patrol of No 46 Cdo. Returned to Commando lines 1700 hours.

Appendix "B" No.23

Subject : Patrols
To : The Adjutant
From : Tpr Wilson (1 Troop)
Date : 25 Jun 44.
Route : Through 1 Troop lines along edge of wood 135755 and to LONGUEMERE from moving along edge in northerly direction to orchard 139755 and through the woods to LE GDE FERME DU BUISSON.

All was quiet and I went forward (EAST) to a line of poplar trees 146759. Made O.P. in a tree. Nothing was seen or heard so I went forward again to a domed building 147755. From here children's voices were heard in buildings in wood 149757. No enemy were seen or heard.

INCIDENTS.

Observer in tree. Snipers on the ground immediately below the tree. Saw movement in enemy area behind Road 146756 to 152764 and behind line 152765 to 143768.

1500 Observer suddenly observed 3 enemy one of whom was making signs to the other who was in front of him. They were immediately in front and 25 yards away.

The observer couldn't warn the snipers and unfortunately did not have his own rifle up the tree with him.

The 3 enemy walked towards the tree but stopped when 15 yards away and turned back. The leader was very young.

After that the observer saw nothing.

Whilst the observer was in the tree and at approx. 1500 hours the snipers saw two civilians near the bomb crater near the hedgerow at about 300 yards in his immediate front.

The civilians went away into the hedgerow and about 30 mins later they returned with two men behind them dressed in British uniform, wearing steel helmets. One of them was armed with a gun, which looked like an M.G. but appeared to have a bigger butt than usual. They walked down the hedgerow directly in front of him in a SOUTHERLY direction and then disappeared from view. They did not come in to our lines.

REMARKS.

O.C. 3 Troop took snipers to report to 1 SS Bde at 1845 hours.

Appendix "B" No.26

Subject : Patrols

To : Adjutant No 3 Commando

From : Captain K.D. Ponsford

Object : To Capture A Prisoner From The Area Of 146766.

COMPOSITION : The Troop was divided into four parties of two squads comprising six each as assault squads and two squads of fifteen in each acting as a firm base and support section. In these two squads there were five Bren guns and two 2" mortars.

TIMINGS : We left the GDE FME DU BUISSON at approx. 0150 hrs. We arrived 150 yds. short of the positions to be attacked 0300 hrs. The prisoner was taken from his position at approx. 0400 hrs. The main body withdrew to FME at 0420 hrs.

NARRATIVE :

On the night of the 26 Jun 44 we advanced through 4 Cdo lines and arrived at the orchard of the GDE FME DU BUISSON at 0115 hrs. The farm was not being held by a standing patrol of 4 SS Bde as we had been informed, and a little time was wasted getting through the orchard. We then struck out for the pond in the middle of the cornfield and this we used as a check point. From there we moved closer to their lines and passed two distinct lines of bomb craters. We saw several deep slit trenches, both in the sides of the bomb craters and in the wheat field. These positions were empty and were probably used as day positions. The support took up position from 146765 to 147764. The assault squads then moved forward about 50 yds. I then took my squad up to the hedge and they cut the road at 147766. I called up the other assault squad under CSM Edwards and sent them up to the right along the road to a suspected MG position in the junc. of the hedgerow, a few minutes after he had gone a cough was heard to the left down the rd.

Cpl Spencer and myself went to investigate. We crossed the road and crept down the hedge on the far side of the rd. Nothing was seen or heard. We found a

telephone wire so Cpl Spencer cut this while I returned for the remainder of the squad. This time we moved down the road itself to the left. Each side there were very deep slit trenches and dug outs with a great deal of head cover. We searched these on either side of the road as we went down but they appeared to be empty. When we were about twenty yds. down the road there were a few bursts of automatic firing from CSM Edwards' area.

I decided to take my squad up behind the hedge on the far side of the road and work up to the assistance of CSM Edwards and his men should they require it. As we were moving up MGs appeared to open up from all directions firing very high and wildly over the cornfields to which our covering party was operating. The fire was immediately returned. The German Posts to our flanks being engaged and the posts in our area fired at above our heads. We were approaching the point where we had previously cut the road when a German ran out of his dug-out towards us to enquire what went on. Cpl Spencer informed him that he had picked the wrong side and that he was a prisoner. He made no attempt to resist. He had no arms on him and appeared dazed having just woken up. The firing in CSM Edwards' area had stopped and so I sent a runner off to contact him, and tell him that we had a prisoner and that he was to withdraw immediately with a covering party.

He went off and I told Cpl Spencer to tell the prisoner to direct us to his HQ. There was a good deal of noise at the time and he must have misunderstood for he asked the prisoner the best way of getting back to his lines to avoid the MG fire. We moved back in an open field in which there were several more dug-outs and shell craters and I saw that the job would take too long. I halted the squad and told them that we had better get back as dawn was breaking and it was getting light rapidly. It was then that I discovered that the prisoner was endeavouring to take us well back into his lines and also that Cpl Spencer had mistaken my instructions. The runner I had sent off to contact CSM Edwards had run into trouble. As he had approached the hedgerow he saw a party of four Germans moving up the rd. They spotted him and one approached him. "HAINDE HOCH" and the German turned on his heel and ran away at this challenge. My runner gave him a burst with his TMC but did not whether he hit him or not. The remainder opened fire on him and he withdrew and reported to me. By the time we got back to the road the fire around the support section and in the area of the road was pretty intense. I saw several Germans scurrying around obviously in panic but did not wish to draw unnecessary attention to the party. We dashed across the road as a body and right back to the covering party. I noticed that there were several bomb craters quite close to the road which do not appear on the aerial photographs. I enquired if CSM Edwards' party had got back and on hearing they had not, decided to wait a short time for them. Shortly after arrival the enemy started mortaring us with two of their 2" mortars, one in the area right of where CSM Edwards' squad got to and one in the field on our left. They had definitely got the range, for the bombs were bursting among us. One actually landed in the bomb crater in which some of us were taking cover. Not one of us was touched by it. (They appear to have even less effect than our 69 grenades) *. After waiting five to ten minutes I decided it would be dangerous to wait longer for the Germans could definitely see us by now and their fire was become effective. I therefore ordered everyone to withdraw. They did so at the double getting as much cover as possible from the corn.

It was very nearly daylight by the time we reached the farm, but strangely enough we were not fired upon. Keeping a small covering party round the farm I sent the prisoner and most of the force back to our lines. I waited nearly an hour, three men who had lost their way came in but none of CSM Edwards' squad. Apart from one who was left at the point at which we cut the rd. Tpr Kingsley was the only one who did not return from the support section.

* The Machine-guns were also firing more accurately.

O.C. 3 Troop

Appendix "B" No.28

Subject: Patrols - 30 Jun 44
To: O.C. 3 Commando
From: Captain K.D. Ponsford O.C. 3 Troop
Object: To ambush and capture a MG team as they moved to a forward position and snipe enemy in the vicinity.
Composition of patrol:- 2 Officers and 18 ORs. Two parties of one Officer 2 Bren gunners and 2 snipers. A covering party acting as a firm base and one Sjt, 2 mortar men, 2 Bren teams, 2 riflemen and 1 TMC man.
Timings: Arrived GDE FME DU BUISSON at 0415 hrs. Ambush parties in position 0430 hrs. Enemy shot at 0545, 0555 and 0612 hrs. Withdrew at 0700 hrs.

Narrative

On arrival at the farm which was unoccupied, the covering party took up positions and Lt Thomson took his party up the hedgerow to the left of the farm, next to the cornfield. He dropped off his Bren half way up the hedgerow to cover the hedgerow and the other side of the field along which I took my party and dropping off the Bren Group approximately opposite his. We then took up position at the two hedgerow juncs. - 143765 and 144764 respectively.

No movement was observed until 0545 when Lt Thomson's party observe a sentry move down the hedgerow 146767 from right to left. He made no attempt to make use of cover. He stood in a gap and was immediately shot by Cpl Grant. The sentry fell to the ground. Ten minutes later three men doubled out using cover and went in to a supposed MG post. A little later a German walked out from the same position along the hedgerow but made a sweep back from the area in which the sentry had been shot. He was carrying something on his shoulder. He walked straight towards us and made a perfect target. Cpl Grant shot him. He fell in a heap and Cpl Grant shot again. The German did not move again and was seen to be in the same position when we left. A little later one of the MG crew who must have observed our party came out of the bushes, knelt down in a fire position behind a tree and took aim. Cpl Grant saw him and fired a shot at him. He disappeared but it is unlikely that he was hit. We observed for another hour but no movement was seen. We then withdrew to the farm and went back to camp. No one shot was fired by the enemy, consequently there were no casualties on our side.

In the field.

Appendix "B" No.29

Subject: Patrols On 30 Jun 44
To OC 3 Commando
From Lt. J Thomson (3 Troop)

Object To observe enemy activity and positions in vicinity LE GDE FME DU BUISSON and to snipe any good targets.
Composition Patrol consisted of 1 Bren team (NCO i/c and 1 & 2) 2 Riflemen 2 snipers and commanded by Lt Thomson.

Timings Patrol went out 1820 hrs. Enemy sentry shot 1939 hours. Patrol withdrew to base (Farm) 1943 hours. Farm area shelled - 2020 - 2040 hours. Patrol withdrew to Camp 2035 hours.

Narrative

The patrol proceeded through No 4 Cdo lines to LE GDE FME DU BUISSON. The farm area was searched and the Bren team placed near water pond at corner of orchard. I placed a machine carbine in the farm loft as look-out. The 2 riflemen I placed out on the ridge parallel to track leading through farm covering left side of hedgerow leading to enemy lines. I advanced down right side of hedge with 2 snipers, using the ditch. I brought both snipers into a position of observation in hedge 300 yds. and parallel to enemy's line. At approx. 1935 I observed a German sentry moving between trees. Tpr Hawkesworth took aim and fired. Sentry fell on his face. Tpr Hawkesworth again fired at sentry. I waited a further two mins and there was no return fire. We then withdrew to farm and took up position of defence. At 2015 hrs I contacted 47 Cdo patrol at T junc. and reported incident. Nothing further was observed from farm area. At 2032 hrs enemy shells began falling in area so I withdrew patrol at 2035 hours.

Sniping Position - 144764. Enemy sentry - 147766. Enemy shells - 139759.

Appendix. "E" No.1

KILLED IN ACTION
